

WARRIORS IN MOTION 5th ANNUAL MASTER CHEF CELEBRATION

Wednesday, May 2, 2018

6:00pm-10:00pm

Metropolitan Pavilion
125 West 18th Street
New York, New York

BNP PARIBAS

Enjoy this amazing opportunity to experience the cuisine of dozens of New York City's most well-known chefs and restaurants. It will be an evening spent tasting signature dishes, and fine wines, and includes a live and silent auction. For over 30 years, the Adaptive Sports Foundation has been providing sports and recreation opportunities to thousands of children and adults with both cognitive and physical disabilities. Considered one of the top adaptive sports programs in the country, the ASF has been on the cutting edge of adaptive sports programming and has provided what participants have often described as "life changing experiences." In 2005, the

Foundation saw an opportunity to use its knowledge to serve our nation's severely injured United States servicemen and women. The ASF is proud to have been one of the first programs in the country to offer sport programs to our wounded military personnel and in the past 12 years has served hundreds of wounded warriors and their families.

Join us on May 2nd to support the Adaptive Sports Foundation's programs for people with disabilities including our Warriors in Motion programs.

Featuring the evening's MC, **Chef Jeff Haskell**, executive chef of Trademark Taste + Grind, and past Food Network's Iron Chef winner.

Carol Becker William Greenberg Desserts	Adrienne Guttieri Trademark Taste + Grind	Carlos Manansala Iavorone Brothers	Sam Adams	

Benefit Committee

Daniel and Elise Gilbert, *Event Co-Chairs*

Dan and Elise Gilbert were introduced to the Adaptive Sports Foundation through a chance meeting on a plane with the one of ASFs honorary board members and was solidified on an early morning lift ride with one of ASFs long time instructors. After learning more about the organization, the Gilberts became annual donors and in 2015, Dan began volunteering as an adaptive ski instructor with the ASF's winter program and quickly recruited his two sons, Wes and Wyatt to also become adaptive ski instructors. The ASF has quickly become a family affair for the Gilberts and Elise joined the effort by spearheading the Gilbert Family Charitable Foundation's renovation of the first floor and kitchen of the ASF lodge in 2017. In 2017, Dan was unanimously elected to the Foundation's Board of Trustees. The Gilbert's have always valued outdoor physical activity as an important part of their family lives through passions for skiing, running, hiking and mountain biking. The Adaptive Sports Foundation allows them to take their passion for the outdoors and pass it on to those who might not otherwise be given the opportunity to feel empowered through sports and being able to experience the highs the body and mind naturally feels while enjoying the beauty of the outdoors. The Gilbert's are truly grateful for the positive impact that the ASF's students have had on their lives and are very much looking forward to a highly successful 2018 Master Chef Celebration.

Phil & Susan Harris, *Honorary Co-Chairs*

Honorary Co-Chairs Susan and Philip Harris and their children Matthew, Danielle and Oliver live in New Canaan, Connecticut. Oliver is an enthusiastic skier with the Adaptive Sports Foundation at Windham Mountain Resort in upstate New York. Phil and Susan stated, "Our family is extremely proud to be a part of the Warriors In Motion Master Chef Celebration. We have grown to admire, respect and be thankful for the tremendous work the staff and volunteers of the Adaptive Sports Foundation do in helping those with disabilities enjoy fulfilling lives through healthy outdoor activities. Our own son Oliver has had phenomenal success skiing with ASF."

Adaptive Sports Foundation

www.adaptivesportsfoundation.org

The Adaptive Sports Foundation (ASF) is a non-profit organization that provides profound and life changing experiences for children and adults with physical and cognitive disabilities and chronic illnesses through outdoor physical activity, education, support, and community. Founded in 1984, the ASF is considered one of the top adaptive sports programs in the country offering winter and summer sports to both children and adults. Through their participation, individuals develop an increased sense of personal accomplishment by becoming involved in activities that have previously been inaccessible to them. ASF's supportive and therapeutic environment has given thousands of children and adults with disabilities the opportunity to have fun and be free of their daily challenges and difficulties.

The ASF's Warriors in Motion (WIM) program provides participating injured United States servicemen and women with a basic knowledge and practice of wellness and the importance of lifelong healthful living. Each event includes adaptive sports instruction, as well as education on other healthy practices such as yoga, good nutrition and stress reduction techniques. Over the course of each event, there is also time for the participants to connect with each other. We view the time that veterans spend together as an essential part of their healing. All Warriors in Motion programs are goal oriented and empower the warrior to take charge of his or her own fitness and wellness.
