

# IMPACT REPORT

## MISSION

The Adaptive Sports Foundation (ASF) empowers lives through adaptive sports, education, support and community. Based in Windham, New York, the ASF provides transformative opportunities for children and adults with physical and cognitive disabilities, individuals with chronic illnesses, and wounded veterans, that foster resilience, growth, and connection.

## BY THE NUMBERS

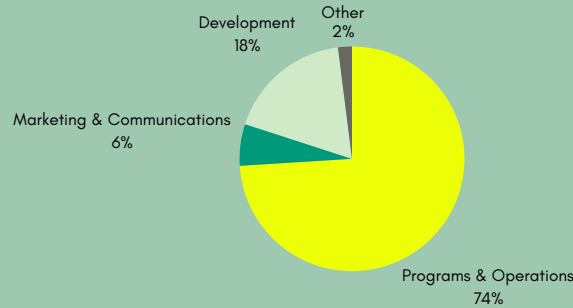

- 218** Number of Volunteers
- 294** Number of Unique Students Served
- 3017** Number of Winter Lessons

## WE ARE ATHLETES

Co-produced by the ASF and HUDSY, in partnership with the Windham Mountain Club and with funding from the KFC Foundation, this inspiring documentary follows Farryl, a 10-year-old girl with cerebral palsy, and Matt, a 33-year-old wounded veteran. As ASF athletes, Farryl strives to conquer the ski slopes independently, while Matt seeks a renewed sense of purpose. Click [HERE](#) to watch ASF's award-winning film!

## YOUR DONATION DOLLARS AT WORK

Last season, 74% of every dollar donated to the ASF directly funded programs & operations.

## PROGRAMS

### Winter Adaptive Ski & Snowboard Lessons at WMC

The ASF offers adaptive skiing and snowboarding lessons for children and adults with cognitive and physical disabilities and chronic illnesses. Students can choose either half or full-day lessons that take place at the Windham Mountain Club.

### Race Camps & Seasonal Programs

The ASF provides training for skiers and snowboarders who already have experience and want to develop their skills for recreational and competitive racing.

### Summer Adaptive Ski & Snowboard Lessons at Big SNOW

Big SNOW is the ideal learning environment for folks that are new to adaptive skiing and snowboarding. The ASF offers two-hour lessons at the indoor skiing facility in the American Dream Mall throughout the summer.

### Warriors in Motion®

The ASF offers U.S. Veterans with disabilities opportunities to participate in summer and winter adaptive sports programs alongside their peers.

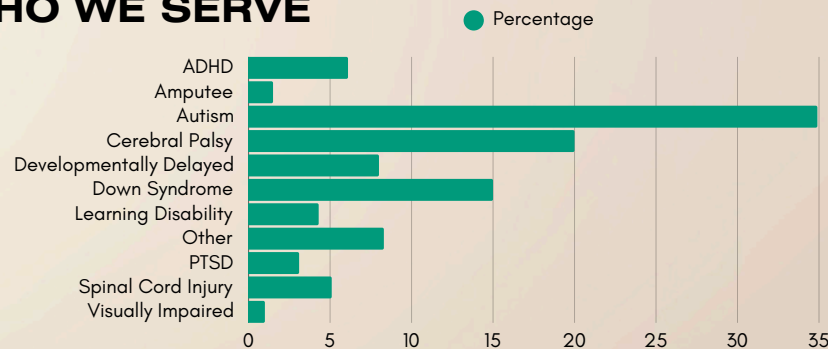

### Skateboarding & Multi-Sport Summer Camps

The ASF offers a variety of summer sports opportunities for individuals with cognitive disabilities including skateboarding, paddling, biking, hiking, and team sports. These activities take place in Windham and the surrounding area.

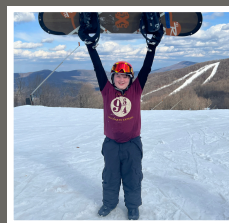

### Move Together Apart

For those who cannot physically join us in Windham, the ASF offers a virtual adaptive physical fitness program via Zoom.

## WHO WE SERVE

## TESTIMONIALS

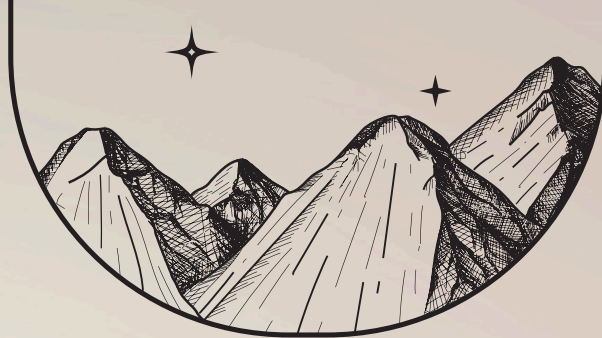

"The ASF helped Aidan go from being the kid who kept his head down and struggled to fit in — to being the kid who proudly holds his head up high!" — Heather, ASF Parent & Volunteer

"The ASF staff and volunteers are more than friends; they are family!" — Millie, Veteran & WIM Athlete

## PARTNERS

## ASF HONORED AS ADAPTIVE KEKOA CLASS JOINS USASA NATIONALS

### A Milestone in Inclusion

This year, the Adaptive Sports Foundation received national recognition from the United States of America Snowboard and Freeski Association (USASA) for its pioneering role in creating the **Adaptive Kekoa Class**, now officially integrated into USASA's national competition program.

What started 15 years ago with a single question—"Can adaptive athletes compete?"—has grown into a unified platform where neurodiverse and adaptive athletes thrive alongside their peers.

### Celebrating Progress

The award was presented at the **2025 USASA National Championships** and accepted by original Kekoa athletes **Zach Elder**, **Charlie Kleiman**, and ASF Head Snowboard Coach **Frank Cabrera**.

The Hawaiian phrase, *Pupukahi i Holomua*, meaning **Unite in Order to Progress**, truly captures the heart of this historic moment. As ASF Executive Director John Iannelli put it, "This is the culmination of years of effort by athletes, coaches, families, and visionaries who believed that adaptive athletes belong on the national stage."

The ASF is committed to breaking barriers and expanding access to competitive snow sports for athletes of all abilities.
