Our mission is to provide profound and life changing experiences for children and adults with physical and cognitive disabilities and chronic illnesses through outdoor physical activity, education, support and community.

ASF participants live with disabilities ranging from relatively mild learning disabilities to more severe disabilities such as quadriplegia, autism and traumatic brain injury.

The ASF provides winter and summer sports to approximately 700 individuals with special needs each year.

The ASF is also a program provider for Wounded Warrior Project® providing sport and fitness programs for hundreds of our nation's wounded servicemen and women annually.

ASF is able to offer these services to individuals with disabilities for little or no cost, in part, through fundraising events such as the 2014 Gala & Auction. By supporting this year's event you will be giving individuals with disabilities hope for a healthier future.

The Adaptive Sports Foundation (ASF) is a 501(c)3 non-profit organization.
